

Winter Camp Activities

1. Using rulers or measuring tapes, measure the following: the width of your thumb, the length of your foot (in your boot or shoe) and the length of your pace. To get a good measurement of your pace, make a starting mark on the ground, and take ten paces starting at that mark. Measure that distance and divide by 10. Ask your leader to help you with the arithmetic.

2. Measure the length of the room you are in and write it down here: _____ paces
which is equal to _____ feet or metres.

3. Measure the distance from your sleeping cabin to the wash house and write it down here: _____ paces which is equal to _____ feet or metres

4. Measure the distance from the main hall to the sleeping cabin and write it down here:
_____ paces which is equal to _____ feet or metres.

5. Measure the length of the table you are sitting at as well as its width. Write down your measurements in the space below

6. Measure the width of your dinner plate and write it down here:

7. Draw a picture of all of the clothes that a cub should wear in winter weather. As you draw each item, write down its name beside its picture. You may use the back of this page as well.
